Harvesting**

## **GRP Tanks**

GRP tank technology is now accepted as standard in virtually every industry from chemicals to food and water, microelectronics and offshore oil and gas.

The available sizes for these standard tanks is from 5000 to 160,000 litres capacity and from 2000 to 4111mm internal diameter (to suit standard man-drels).

Cirrus are able to supply this range of GRP storage tanks using a variety of different specification materials selected for the appropriate chemical resistance.
