## Road Gullies

Road gullies are much larger than the smaller yard gullies, but work in exactly the same way. They tend to have 150mm diameter outlets, rather than 100mm, and come in a variety of diameters and depths. Road gullies used within carriageways are typically used to drain an area not exceeding 250m<sup>2</sup>

Sizes:

300mm x 600mm x 110mm

450mm x 750mm x 160mm

450mm x 900mm x 160mm

We also stock road gully adaptors, silt buckets, gratings and connection pipes to suit.
