MDPE PIPE

Pipe for gas, water and industrial applications has always been manufactured from MDPE rather than HDPE PE80. MDPE has a higher long term stress crack resistance than traditional HDPE PE80.

Our traditional single layer pipe is extruded in the following colours:-

Light Blue - For potable water supply below the ground

Yellow - For gas supply below the ground

Black - For global water and gas supplies, UK potable water supplies above the ground and industrial (sewerage, mining, and quarry) applications above and below the ground.
