

Accessories

Draw Cord

Manufactured from high quality polypropylene, this is used to pull cables through ducts.

Duct Spacers

Modular injection mouldings available to secure multi-installations of 94, 100 and 150mm internal diameter ducts.

Proving Pigs, Mandrels & Brushes

Mandrels are used for proving duct integrity. They are handmade, complete with towing eyes and available to suit all standard diameter ducts.

Cylindrical brushes are used for removing debris prior to pulling the cable through.

End Caps & Plugs

Providing excellent protection from damage, dirt, moisture and corrosion prior to installing the cables. Being tapered, they can be used as either an end cap or a plug.

Pipe Support Systems

A comprehensive range of specialist pipe hangers, brackets and appropriate fixings are available to order for domestic commercial and industrial applications.
